

OPTIMIZE YOUR SOFTWARE

5

CRITICAL USAGE REPORTS

Meter your IT assets and transform your data into reports that can generate business value, increase productivity, and manage compliance risks.

1

DAILY MAX LICENSE USAGE

Uncover the accurate concurrent license usage at any period across different time zones.

2

ACTIVE vs INACTIVE USE

Determine the true active usage of your licenses.

3

USAGE DISTRIBUTION

Measure the actual product and feature usage to right-size the number of licenses.

4

KEYBOARD & MOUSE ACTIVITY

Understand user behavior and evaluate software usability.

5

LICENSE DENIALS

Find out the reason for each denial and identify between true and false denials.

Learn more about how Open iT can help you gather the necessary usage data and turn them into actionable reports that can be integrated with various BI tools such as:

Microsoft Excel[®]

Power BI[®]

Tableau[®]

TIBCO Spotfire[®]
